**BOOKS**

**Contemporary Bioethics: A Reader With Cases**
Young EWD. JAMA. 2011; 305:510-11.

**Public Health Law and Ethics**
Sessions SY. JAMA 2011; 305:509-10.

**Feminist Bioethics: At the Center, On the Margins**
Fosarelli P. JAMA 2011; 305:511-12.

**Ethics in Nursing: Cases, Principles, and Reasoning**

**The Virtuous Psychiatrist: Character Ethics in Psychiatric Practice**
Trinidad AC. JAMA 2011; 305:624-5

**ARTICLES**

**Misrepresentation of neuroscience data might give rise to misleading conclusions in the media: the case of attention deficit hyperactivity disorder**

**Misuse of the FDA's humanitarian device exemption in deep brain stimulation for obsessive-compulsive disorder**

**Is our self nothing but reward?**

**Informed consent for MRI and fMRI research: Analysis of a sample of Canadian consent documents**
Generalized anxiety disorder
Torpy JM et al. JAMA. 2011; 305:522.

Equality and the treatment-enhancement distinction
Holtug N. Bioethics 2011; 25(3): 137-44.

The need for public engagement in choosing health priorities
Chafe R et al. CMAJ 2011;183 165b

China struggles to rebuild mental health programs
Ma S. CMAJ 2011;183 E89-E90

Brain gene transfer and brain implants

Neuroethical issues in neurogenetic and neuro-implantation technology: The need for pragmatism and preparedness in practice and policy
Giordano J. Studies in Ethics, Law, and Technology 2010; 4(3):
http://www.bepress.com/selt/vol4/iss3/art4

Brain-computer interaction and medical access to the brain: Individual, social and ethical implications
Hildt E. Studies in Ethics, Law, and Technology 2010; 4(3):

Brain-Machine Interfaces and Personal Responsibility for Action – Maybe Not As Complicated After All
Søren H, Teck Chuan V. Studies in Ethics, Law, and Technology 2010; 4(3):

Neurolaw or Frankenlaw? The thought police have arrived

Ethical considerations for normal control subjects in MRI research
Chow A, Drummond KJ. J Clin Neurosci. 2010 Sep;17(9):1111-3

Birth of a brain disease: science, the state and addiction neuropolitics
The past, present and future of neurology in the United States. 1951

Conflict of interest.

Pitfalls in the publication of scientific literature: a road map to manage conflict of interest and other ethical challenges

A qualitative study of service user experiences of occupation in forensic mental health

Do-not-attempt-resuscitation orders and prognostic models for intraparenchymal hemorrhage

Egas Moniz (1874-1955) and the "invention" of modern psychosurgery: a historical and ethical reanalysis under special consideration of Portuguese original sources

Conceptual and ethical issues in the declaration of death

The neural bases of normal and deviant moral cognition and behavior

Ethics, health care and spinal cord injury: research, practice and finance

Ethics, healthcare and spinal cord injury: research, practice and finance

Survey of investigators' opinions on the acceptability of interactions with patients participating in clinical trials
Free will and psychiatric assessments of criminal responsibility: a parallel with informed consent

The diseased embodied mind: constructing a conception of mental disease in relation to the person.

Continuous deep sedation, physician-assisted suicide, and euthanasia in Huntington's disorder

Mental Health Commissions: making the critical difference to the development and reform of mental health services
Rosen A, Goldbloom D, McGeorge P. Curr Opin Psychiatry. 2010 Nov;23(6):593-603

Can this patient go home? Assessment of decision-making capacity

The psychometric properties of the Socio-Moral Reflection Measure--Short Form and the Moral Theme Inventory for men with and without intellectual disabilities
Langdon PE, Murphy GH, Clare IC, Palmer EJ. Res Dev Disabil. 2010 Nov-Dec;31(6):1204-15

The effects of familism and cultural justification on the mental and physical health of family caregivers

Social aesthetics and the management of addiction

Palliative care for people with dementia

Ethical and legal considerations for internet-based psychotherapy

Ethical aspects of personality disorders
Electrodes in the brain-Ethical criteria for research and treatment with deep brain stimulation for neuropsychiatric disorders

Non-medical use of prescription stimulants and illicit use of stimulants for cognitive enhancement in pupils and students in Germany

Parsing neurobiological dysfunctions in obesity: nosologic and ethical consequences

Recent case developments in health law. "Willful modulation of brain activity in disorders of consciousness": legal and ethical ramifications

Service user involvement and the restrictive sense of psychiatric categories: the challenge facing mental health nurses

Respecting patient autonomy: understanding the impact on NHS hospital in-patients of legislation and guidance relating to patient capacity and consent

"Brain Matters 2 Ethics in the Translation of Neuroscience Research to Psychiatric and Neurological Care":
You still have a few hours to submit your Early Career Scholar Award application, due February 15th. Register before March 1st, 2011 to take advantage of early registration fees.

« Le cerveau importe 2 : L’éthique dans le transfert des neurosciences aux soins psychiatriques et neurologiques »:
Vous avez encore quelques heures pour soumettre une demande de bourse pour jeunes chercheurs puisque la date limite est le 15 février 2011. Inscrivez-vous avant le 1er mars 2011 pour bénéficier de tarifs spéciaux.
